I'm please to announce a new addition to my lessons as well as fitting capabilities. I've recently purchased a [GC Quad Launch Monitor](#). This unit has Head Measurement Technology and allows us to capture the head at the impact position. Services that will be offered:

- Bag Mapping - \$50*
- Iron Fitting - \$50 (Free with a purchase of a set)*
- Driver Fitting - \$50 (Free with a purchase of a driver)*
- Range Use on Quad (indoor only) - \$25 per hour (availability may be limited)*
- Private lessons with indoor and outdoor applications available*

1934

If you are interested in seeing how the monitor works, please don't hesitate to set up an appointment with me to give you a demo.
